

Jumpers for pGND/sGND binding should be bridged if necessary and appropriate, which should be the case only if no other common point is used for signal grounding.

3 / 1 - 5V  
3 \ 2 - Vee  
2 - 3 - Vcc  
1 / 4 - GND  
1 \ 5 - Vee  
2 - 6 - Vee  
4 / 7 - 3.3V  
4 \ 8 - Vee

Connect to breadboard power rails. Ideally should be a breakable extension.
